## SLU's Shared Mission

The Shared Mission program offers an in-depth, community-based opportunity for faculty, staff, administrators and trustees of Saint Louis University. This foundational program opens the door for deeper participation in the wide variety of mission programs offered by SLU's Division for Mission and Identity. The ongoing formation of our community strengthens the Catholic Jesuit mission of the university, a mission steeped in over five centuries of history in the Ignatian tradition yet arguably more vital now than ever before.

Over the course of an academic year, [six Ignatian luncheons](#) bring together small group cohorts to meet, learn, discuss, and integrate the history, impact and lived reality of the Jesuit mission and Ignatian identity of Saint Louis University. Participants in the Shared Mission program come from diverse academic, professional and religious backgrounds. All are welcome to participate as we seek to form an Ignatian "band of companions" centered on mission as we build a community of belonging.
